Art Unit: 3644

1. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or make obvious the claimed method or system for inerting an aircraft tank. Specifically, the prior art fails to show an inerting system which uses a first membrane of lower oxygen permeance to introduce a stream of nitrogen-enriched air into the tank during low demand periods and a second membrane of higher oxygen permeance to introduce a second stream of nitrogen-enriched air into the tank during high demand periods.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-30 are allowed.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hickey et al, Runnels et al, Schaub, Dowdall, and Anthony et al are cited as being of interest since they disclose inerting systems.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Woodrow Eldred whose telephone number is (703) 306-4151.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 306-4177.
